What is claimed is:

- 1. A flash unit for a camera, comprising:
- a bracket disposed inside the camera;
- a reflecting member disposed inside the bracket;
- 4 two fixed members integrally formed on the bracket; and
- a flash emission tube fixedly disposed inside the bracket by the fixed members.
 - 2. The flash unit as claimed in claim 1, wherein the fixed members are made of a flexible material.
 - 3. The flash unit as claimed in claim 2, wherein the bracket and the fixed members are made of plastic.
 - 4. The flash unit as claimed in claim 3, wherein the bracket is provided with two through holes adjacent to the fixed members separately, and an area of the through hole defined by the corresponding fixed member is smaller than a cross-section area of the flash emission tube passing through the through hole.
 - 5. A flash unit for a camera, comprising:
- 2 a bracket disposed inside the camera;
- a reflecting member disposed inside the bracket;
- a fixed member integrally formed on the bracket; and
- a flash emission tube fixedly disposed inside the
- 6 bracket by the fixed member.
- 1 6. The flash unit as claimed in claim 5, wherein the
- bracket is provided with a receiving portion, formed opposite
- 3 the fixed member.

- 7. The flash unit as claimed in claim 6, wherein the fixed
 member is made of a flexible material.
- 8. The flash unit as claimed in claim 7, wherein the bracket and the fixed member are made of plastic.
 - 9. The flash unit as claimed in claim 8, wherein the bracket is provided with a through hole adjacent to the fixed member, and an area of the through hole defined by the fixed member is smaller than a cross-section area of the flash emission tube passing through the through hole.
 - 10. A flash unit for a camera, comprising:
 - a bracket, having two holders, disposed inside the camera;
 - a reflecting member disposed inside the bracket; and
 - a flash emission tube fixedly disposed inside the bracket by the holders. $% \left\{ 1\right\} =\left\{ 1\right\} =$
